Trayhurn P Proteomics and Nutrition – A science for the first decade of the new Millennium (Editorial). 1
Stangl GI, Schwarz FJ, Jahn B & Kirchgessner M Cobalt-deficiency-induced hyperhomocysteinaemia and oxidative status of cattle (Short communication). 3
Johnstone AM, Shannon E, Whybrow S, Reid CA & Stubbs RJ Altering the temporal distribution of energy intake with isoenergetically dense foods given as snacks does not affect total daily energy intake in normal-weight men. 7
Zohouri FV & Rugg-Gunn AJ Total fluoride intake and urinary excretion in 4-year-old Iranian children residing in low-fluoride areas. 15
Ball MJ & Ackland ML Zinc intake and status in Australian vegetarians. 27
Lachica M & Aguilera JF Estimation of the energy costs of locomotion in the Iberian pig (*Sus mediterraneus*). 35
Langer S & Fuller MF Interactions among the branched-chain amino acids and their effects on methionine utilization in growing pigs: effects on nitrogen retention and amino acid utilization. 43
Langer S, Scislowski PWD, Brown DS, Dewey P & Fuller MF Interactions among the branched-chain amino acids and their effects on methionine utilization in growing pigs: effects on plasma amino- and keto-acid concentrations and branched-chain keto-acid dehydrogenase activity. 49
Duncan AJ, Frutos P & Young SA The effect of rumen adaptation to oxalic acid on selection of oxalic-acid-rich plants by goats. 59
Ahvenjärvi S, Vanhatalo A, Huhtanen P & Varvikko T Determination of reticulo-rumen and whole-stomach digestion in lactating cows by omasal canal or duodenal sampling. 67
Nwagwu MO, Cook A & Langley-Evans SC Evidence of progressive deterioration of renal function in rats exposed to a maternal low-protein diet *in utero*. 79
Youdim KA & Deans SG Effect of thyme oil and thymol dietary supplementation on the antioxidant status and fatty acid composition of the ageing rat brain. 87
Paillaud E, Bories P-N, Le Parco J-C & Campillo B Nutritional status and energy expenditure in elderly patients with recent hip fracture during a 2-month follow-up. 97
Griep MI, Mets TF & Massart DL Effects of flavour amplification of Quorn® and yoghurt on food preference and consumption in relation to age, BMI and odour perception. 105
Jebb SA, Cole TJ, Doman D, Murgatroyd PR & Prentice AM Evaluation of the novel Tanita body-fat analyser to measure body composition by comparison with a four-compartment model. 115
Hess V, Ganier P, Thibault J-N & Sève B Comparison of the isotope dilution method for determination of the ileal endogenous amino acid losses with labelled diet and labelled pigs. 123
Dhanoa MS, Lopez S, Dijkstra J, Davies DR, Sanderson R, Williams BA, Sileshi Z & France J Estimating the extent of degradation of ruminant feeds from a description of their gas production profiles observed *in vitro*: comparison of models. 131
France J, Dijkstra J, Dhanoa MS, Lopez S & Bannink A Estimating the extent of degradation of ruminant feeds from a description of their gas production profiles observed *in vitro*: derivation of models and other mathematical considerations. 143
Terpstra AHM, van den Berg P, Jansen H, Beynen AC & van Tol A Decreasing dietary fat saturation lowers HDL-cholesterol and increases hepatic HDL binding in hamsters. 151
Mast J, Buyse J & Goddeeris BM Dietary L-carnitine supplementation increases antigen-specific immunoglobulin G production in broiler chickens. 161
Gill HS, Rutherfurd KJ, Prasad J & Gopal PK Enhancement of natural and acquired immunity by *Lactobacillus rhamnosus* (HN001), *Lactobacillus acidophilus* (HN017) and *Bifidobacterium lactis* (HN019). 167
Achón M, Alonso-Aperte E, Reyes L, Úbeda N & Varela-Moreiras G High-dose folic acid supplementation in rats: effects on gestation and the methionine cycle. 177
Koivu-Tikkanen TJ, Schurgers LJ, Thijssen HHW & Vermeer C Intestinal, hepatic, and circulating vitamin K levels at low and high intakes of vitamin K in rats. 185

Larsen T, Thilsted SH, Kongsbak K & Hansen M Whole small fish as a rich calcium source. 191
Manabe N, Azuma Y, Sugimoto M, Uchio K, Miyamoto M, Taketomo N, Tsuchita H & Miyamoto H Effects of the mycelial extract of cultured *Cordyceps sinensis* on *in vivo* hepatic energy metabolism and blood flow in dietary hypoferric anaemic mice. 197
Heger J A Quantitative Biology of the Pig (Book review). 205
Cordain L, Toohey L, Smith MJ & Hickey MS Modulation of immune function by dietary lectins in rheumatoid arthritis. 207
Hals J, Bjerve KS, Nilsen H, Svalastog AG & Ek J Essential fatty acids in the nutrition of severely neurologically disabled children. 219
Haggarty P, Shetty P, Thangam S, Kumar S, Kurpad A, Ashton J, Milne E & Earl C Free and esterified fatty acid and cholesterol synthesis in adult males and its effect on the doubly-labelled water method. 227
Tandon N, Thakur V, Guptan RKC & Sarin SK Beneficial influence of an indigenous low-iron diet on serum indicators of iron status in patients with chronic liver disease. 235
Murray IA, Coupland K, Smith JA, Ansell ID & Long RG Intestinal trehalase activity in a UK population: establishing a normal range and the effect of disease. 241
Olano-Martin E, Mountzouris KC, Gibson GR & Rastall RA *In vitro* fermentability of dextran, oligodextran and maltodextrin by human gut bacteria. 247
Williams DEM, Prevost AT, Whichelow MJ, Cox BD, Day NE & Wareham NJ A cross-sectional study of dietary patterns with glucose intolerance and other features of the metabolic syndrome. 257
Mannan N, Boucher BJ & Evans SJW Increased waist size and weight in relation to consumption of *Areca catechu* (betel-nut); a risk factor for increased glycaemia in Asians in East London. 267
Stubenitsky K & Mela DJ UK consumer perceptions of starchy foods. 277
Gay C Estimation of population distributions of habitual nutrient intake based on a short-run weighed food diary. 287
Wylie MJ, Ellis WC, Matis JH, Bailey EM, James WD & Beever DE The flow of forage particles and solutes through segments of the digestive tracts of cattle. 295
Milano GD, Hotston-Moore A & Lobley GE Influence of hepatic ammonia removal on ureagenesis, amino acid utilization and energy metabolism in the ovine liver. 307
Hoggard N, Hunter L, Lea RG, Trayhurn P & Mercer JG Ontogeny of the expression of leptin and its receptor in the murine fetus and placenta. 317
Moussa M, Tkaczuk J, Ragab J, Garcia J, Abbal M, Ohayon E, Ghisolfi J & Thouvenot J-P Relationship between the fatty acid composition of rat lymphocytes and immune functions. 327
Pratley RE Type 2 Diabetes. Prediction and Prevention (Book review). 335
Kyriazakis I Regulation of Feed Intake (Book review). 336
Wainwright P Nutrition and behaviour: the role of *n*-3 fatty acids in cognitive function (Invited commentary). 337
Black AE, Welch AA & Bingham SA Validation of dietary intakes measured by diet history against 24 h urinary nitrogen excretion and energy expenditure measured by the doubly-labelled water method in middle-aged women. 341
Ribeyre J, Fellmann N, Montaurier C, Delaître M, Vernet J, Coudert J & Vermorel M Daily energy expenditure and its main components as measured by whole-body indirect calorimetry in athletic and non-athletic adolescents. 355
Goris AHC & Westerterp KR Improved reporting of habitual food intake after confrontation with earlier results on food reporting. 363
Torres IC, Mira L, Ornelas CP & Melim A Study of the effects of dietary fish intake on serum lipids and lipoproteins in two populations with different dietary habits. 371
Mazur WM, Uehara M, Wähälä K & Adlercreutz H Phyto-oestrogen content of berries, and plasma concentrations and urinary excretion of enterolactone after a single strawberry-meal in human subjects. 381
Bolton-Smith C, Price RJG, Fenton ST, Harrington DJ & Shearer MJ Compilation of a provisional UK database for the phylloquinone (vitamin K_1) content of foods. 389
Liu SM, Mata G, Figliomeni S, Powell BC, Nesci A & Masters DG Transsulfuration, protein synthesis rate and follicle mRNA in the skin of young Merino lambs in response to infusions of methionine and serine. 401

Catala I, Juste C, Boehler N, Férézou J, André M, Riottot M, Lutton C, Lafont H, Bornet F & Corring T Cholesterol crystallization in gall-bladder bile of pigs given cholesterol–β-cyclodextrin-enriched diets with either casein or soyabean concentrate as protein sources. 411
Hodgkinson SM, Moughan PJ, Reynolds GW & James KAC The effect of dietary peptide concentration on endogenous ileal amino acid loss in the growing pig. 421
Lambert MS, Avella MA, Botham KM & Mayes PA The type of dietary fat alters the hepatic uptake and biliary excretion of cholesterol from chylomicron remnants. 431
Carrié I, Guesnet P, Bourre J-M & Francès H Diets containing long-chain *n*-3 polyunsaturated fatty acids affect behaviour differently during development than ageing in mice. 439
Konashi S, Takahashi K & Akiba Y Effects of dietary essential amino acid deficiencies on immunological variables in broiler chickens. 449
Newbold J The Use of Drugs in Food Animals: Benefits and Risks (Book review). 457
Aggett PJ Nutricines: Food Components in Health and Disease (Book review). 457
Kritchevsky D Antimutagenic and some other effects of conjugated linoleic acid. 459
Roche HM, Black IL, Noone E, Tully A-M, Whitehead AS & Gibney MJ Postprandial factor VII metabolism: the effect of the R353Q and 10 bp polymorphisms (Short communication). 467
Lawton CL, Delargy HJ, Brockman J, Smith FC & Blundell JE The degree of saturation of fatty acids influences post-ingestive satiety. 473
Urooj A & Puttaraj S Glycaemic responses to cereal-based Indian food preparations in patients with non-insulin-dependent diabetes mellitus and normal subjects. 483
Arvaniti K, Richard D & Tremblay A Reproducibility of energy and macronutrient intake and related substrate oxidation rates in a buffet-type meal. 489
Sujatha T, Shatrugna V, Venkataramana Y & Begum N Energy expenditure on household, childcare and occupational activities of women from urban poor households. 497
Millward DJ, Forrester T, Ah-Sing E, Yeboah N, Gibson N, Badaloo A, Boyne M, Reade M, Persaud C & Jackson A The transfer of ^{15}N from urea to lysine in the human infant. 505
Filteau SM, Willumsen JF, Sullivan K, Simmank K & Gamble M Use of the retinol-binding protein : transthyretin ratio for assessment of vitamin A status during the acute–phase response. 513
Nozière P, Martin C, Rémond D, Kristensen NB, Bernard R & Doreau M Effect of composition of ruminally-infused short-chain fatty acids on net fluxes of nutrients across portal-drained viscera in underfed ewes. 521
Langhout DJ, Schutte JB, de Jong J, Sloetjes H, Verstegen MWA & Tamminga S Effect of viscosity on digestion of nutrients in conventional and germ-free chicks. 533
Geelen MJH & Beynen AC Consumption of olive oil has opposite effects on plasma total cholesterol and sphingomyelin concentrations in rats. 541
Juhel C, Pafumi Y, Senft M, Lafont H & Lairon D Chronically gorging *v.* nibbling fat and cholesterol increases postprandial lipaemia and atheroma deposition in the New Zealand White rabbit. 549
Feillet-Coudray C, Coudray C, Bayle D, Rock E, Rayssiguier Y & Mazur A Response of diamine oxidase and other plasma copper biomarkers to various dietary copper intakes in the rat and evaluation of copper absorption with a stable isotope. 561
Roche HM Lipids in Nutrition & Health: A Reappraisal (Book review). 569
Duthie GG Antioxidants in Human Health and Disease (Book review). 569
Dallongeville J Apolipoprotein E mutations, type V hyperlipoproteinaemia and diet (Invited commentary). 573
Corish CA & Kennedy NP Protein–energy undernutrition in hospital in-patients. 575
Chango A, Boisson F, Barbé F, Quilliot D, Droesch S, Pfister M, Fillon-Emery N, Lambert D, Frémont S, Rosenblatt DS & Nicolas JP The effect of 677C→T and 1298A→C mutations on plasma homocysteine and 5,10-methylenetetrahydrofolate reductase activity in healthy subjects (Short communication). 593
Fielding BA, Reid G, Grady M, Humphreys SM, Evans K & Frayn KN Ethanol with a mixed meal increases postprandial triacylglycerol but decreases postprandial non-esterified fatty acid concentrations. 597
de Jong N, Paw MJMCA, de Graaf C & van Staveren WA Effect of dietary supplements and physical exercise on sensory perception, appetite, dietary intake and body weight in frail elderly subjects. 605
Vialettes B, Reynier P, Atlan-Gepner C, Mekki N, Lesluyes-Mazzochi L, Luc G, Lairon D & Malthiery Y Dietary fat clearance in type V hyperlipoproteinaemia secondary to a rare variant of human apolipoprotein E: the apolipoprotein E3 (Arg 136→Ser). 615

Peracchi M, Santangelo A, Conte D, Fraquelli M, Tagliabue R, Gebbia C & Porrini M The physical state of a meal affects hormone release and postprandial thermogenesis. 623
Bassey EJ, Littlewood JJ, Rothwell MC & Pye DW Lack of effect of supplementation with essential fatty acids on bone mineral density in healthy pre- and post menopausal women: two randomized controlled trials of Efacal® *v.* calcium alone. 629
Matthews KR, Homer DB, Thies F & Calder PC Effect of whole linseed (*Linum usitatissimum*) in the diet of finishing pigs on growth performance and on the quality and fatty acid composition of various tissues. 637
Gabarrou J-F, Geraert PA, Williams J, Ruffier L & Rideau N Glucose–insulin relationships and thyroid status of cockerels selected for high or low residual food consumption. 645
Burel C, Boujard T, Escaffre A-M, Kaushik SJ, Boeuf G, Mol KA, Van der Geyten S & Kühn ER Dietary low-glucosinolate rapeseed meal affects thyroid status and nutrient utilization in rainbow trout (*Oncorhynchus mykiss*). 653
Bonilla S, Redonnet A, Noël-Suberville C, Pallet V, Garcin H & Higueret P High-fat diets affect the expression of nuclear retinoic acid receptor in rat liver. 665
Bennett T, Desmond A, Harrington M, McDonagh D, FitzGerald R, Flynn A & Cashman KD The effect of high intakes of casein and casein phosphopeptide on calcium absorption in the rat. 673
Dulloo AG Regulation of Food Intake and Energy Expenditure, 1999 (Book review). 681
Mera SL Diet, Lipoproteins and Coronary Heart Disease, 1999 (Book review). 681
Asp N-G, Frayn K & Vessby B Foreword. S1
Seidell JC Obesity, insulin resistance and diabetes – a worldwide epidemic. S5
Arner P Obesity – a genetic disease of adipose tissue? S9
Ravussin E & Bogardus C Energy balance and weight regulation: genetics versus environment. S17
Lissner L, Heitmann BL & Bengtsson C Population studies of diet and obesity. S21
Astrup A, Ryan L, Grunwald GK, Storgaard M, Saris W, Melanson E & Hill JO The role of dietary fat in body fatness: evidence from a preliminary meta-analysis of *ad libitum* low-fat dietary intervention studies. S25
Blundell JE & Cooling J Routes of obesity: phenotypes, food choices and activity. S33
Groop L Genetics of the metabolic syndrome. S39
Björntorp P & Rosmond R The metabolic syndrome – a neuroendocrine disorder? S49
Clarke SD Polyunsaturated fatty acid regulation of gene transcription: a mechanism to improve energy balance and insulin resistance. S59
Haffner SM Obesity and the metabolic syndrome: the San Antonio Heart Study. S67
Frayn KN Visceral fat and insulin resistance – causative or correlative? S71
Grill V & Qvigstad E Fatty acids and insulin secretion. S79
Storlien LH, Higgins JA, Thomas TC, Brown MA, Wang HQ, Huang XF & Else PL Diet composition and insulin action in animal models. S85
Vessby B Dietary fat and insulin action in humans. S91
Wolever TMS Dietary carbohydrates and insulin action in humans. S97
Lean MEJ Is long-term weight loss possible? S103
Hermansen K Diet, blood pressure and hypertension. S113
Marckmann P Dietary treatment of thrombogenic disorders related to the metabolic syndrome. S121
Ordovas JM & Schaefer EJ Genetic determinants of plasma lipid response to dietary intervention: the role of the *APOA1/C3/A4* gene cluster and the *APOE* gene. S127
Uusitupa M, Louheranta A, Lindström J, Valle T, Sundvall J, Eriksson J & Tuomilehto J The Finnish Diabetes Prevention Study. S137
Riccardi G & Rivellese AA Dietary treatment of the metabolic syndrome – the optimal diet. S143
Björck I, Liljeberg H & Östman E Low glycaemic-index foods. S149
Jenkins DJA, Axelsen M, Kendall CWC, Augustin LSA, Vuksan V & Smith U Dietary fibre, lente carbohydrates and the insulin-resistant diseases. S157
Anderson AS How to implement dietary changes to prevent the development of metabolic syndrome. S165
Mann JI Can dietary intervention produce long-term reduction in insulin resistance? S169
Dwyer JT & Ouyang CM What can industry do to facilitate dietary and behavioural changes? S173
Bruce Å Strategies to prevent the metabolic syndrome at the population level: role of authorities and non-governmental bodies. S181
